Mobile Cloud Computing -  
Voice over Internet  
Protocol (also voice over  
IP, VoIP or IP telephony) is  
a methodology and group of  
technologies for the  
delivery of voice  
communications and  
multimedia sessions over  
Internet Protocol (IP)  
networks, such as the  
Internet. Voice over IP -  
Wikipedia - Information  
and Communications  
Technology (ICT) is  
viewed as both a means and  
an end for development.  
With roughly two-third of  
the world economy based  
on services, and the rise of  
India, Philippines, and other  
nations as global IT players,  
many developing countries  
have accepted ICT as a  
national mission. Even  
within manufacturing and  
industry, ICT has an  
increasingly important role  
to play ... 2 Information
